

# **1 Introduction**

## **1.1 Background**

Some things that older generation can learn from today's generation.

## **1.2 Main Idea**

There are some things that Older Generation can learn from Today's Generation. This includes from evolving technology, rapidly changing entertainment, and more reachable education.

# **2 Technology has evolved**

1. Technology has evolved significantly over the years
2. Examples, computer software
  - 2.1. Some older people keep using old application (legacy software)
  - 2.2. They didn't want to change because usually they didn't want to learn new things.
3. There's a lot of advantages of using new software instead of legacy software
  - 3.1. Easier to maintain
  - 3.2. Better compatibility with new software

# **3 Entertainment is rapidly changing**

1. Entertainment has a lot of changes for years
2. For example, watching shows
  - 2.1. In TV era, we need to wait for the show's airing time
  - 2.2. And in the 80s, VCR came along
  - 2.3. Now, you just pick your favorite show and watch it instantly over a lot of streaming services

# **4 Education is more reachable**

1. Education is also changing too.
2. Back then, you need a lot of books or teachers to teach you about a subject.
3. Now, you can
